Subject: application for CAD cell cooperative agreement

Kristin - just a heads up, its getting to be that time where the HDC will need to submit an application for a **"Cooperative Agreement"** to construct ~300,000 cy of CAD cell space for Superfund material as we've been discussing for some time now. Obviously EPA's "ESD" will need to be finalized prior to executing the CA, but we can get the process started in advance. Overall goal is to have the CA executed by 9/30/10. We can discuss more next week, and I'll send the application form along. The way we've handled this in the past is that EPA helps draft the Work Plan to get things started.

Have a great weekend.

Dave
